

Staff and Student Discount Schemes for Hardware

DELL Employee Purchase Plan (EPP) – Step by Step

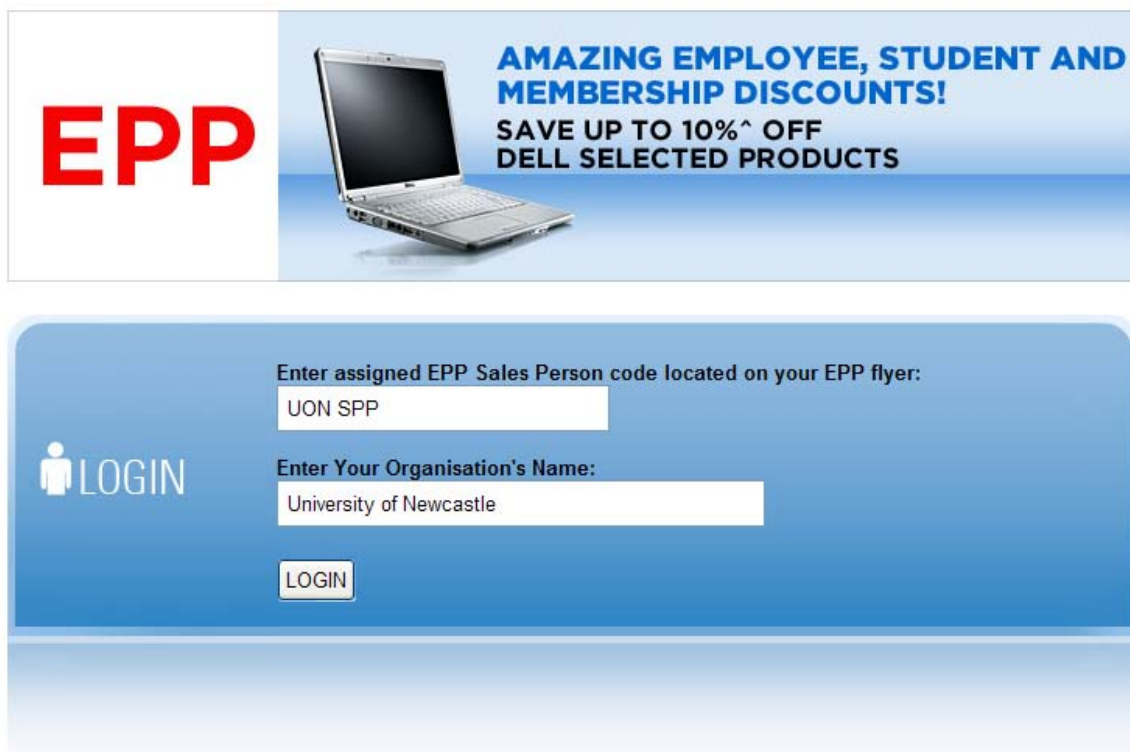

Dell offers a range of discounts, up to 12%, to staff and students of the University of Newcastle, dependent on the value of the order.

To obtain the discount you will need to obtain a current discount code (coupon) from the DELL web site before you complete your purchase using the DELL online store. These codes change on a monthly basis and have different levels of discount depending on the DELL product family you are purchasing from.

Step 1. Login to DELL EPP site

In a web browser go to: <http://www.dell.com.au/epp>

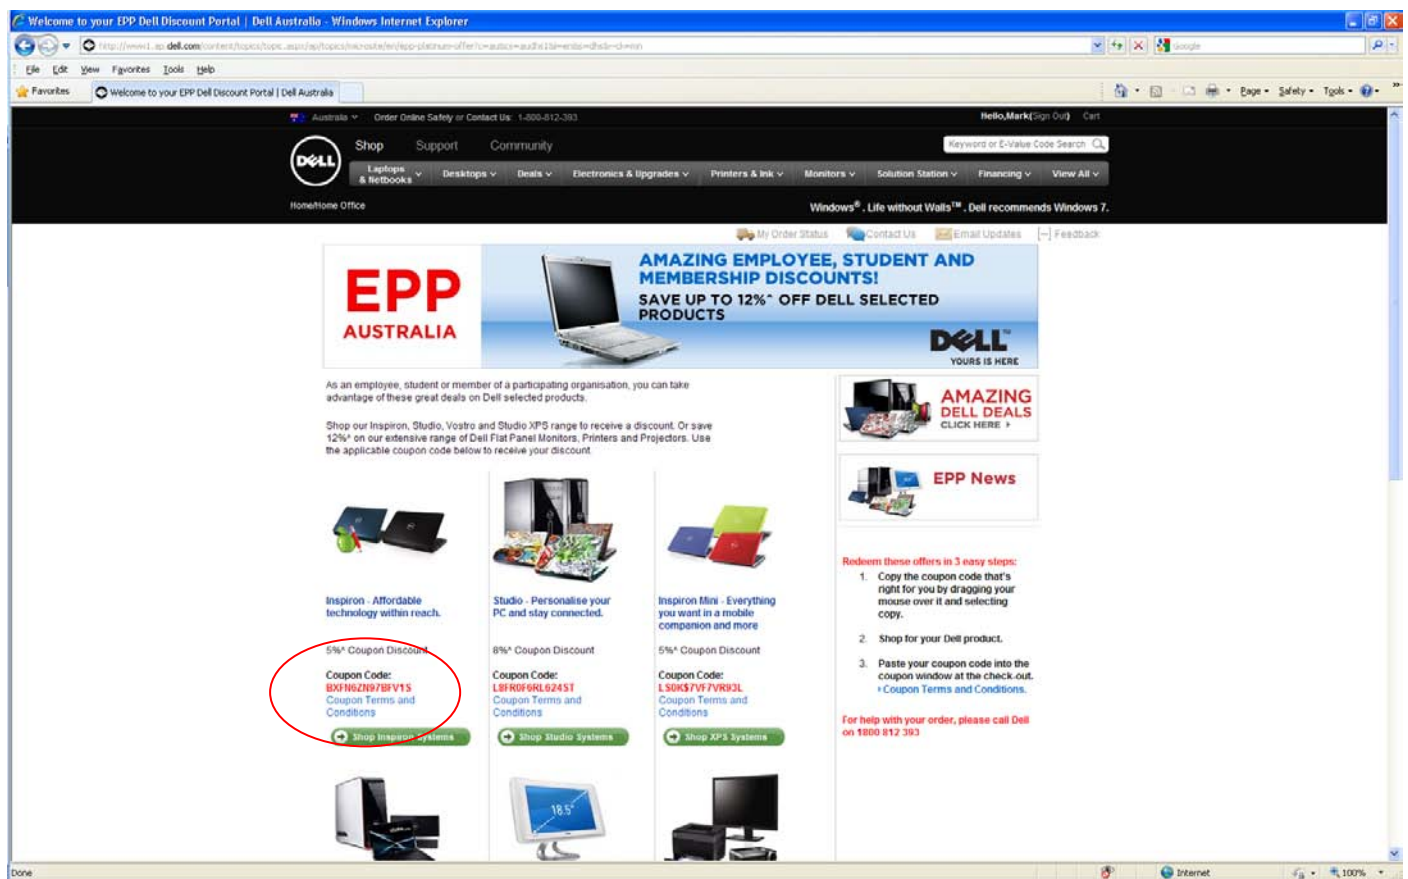

On the login screen, enter “UON SPP” in the EPP Sales Person code field and “University of Newcastle” in the Organisation’s Name field. Click on the LOGIN button.

The image shows the DELL EPP login interface. At the top, there is a banner with the text "EPP" in large red letters, an image of a laptop, and the text "AMAZING EMPLOYEE, STUDENT AND MEMBERSHIP DISCOUNTS! SAVE UP TO 10% OFF DELL SELECTED PRODUCTS". Below the banner is a blue login box. On the left side of the box is a person icon and the word "LOGIN". On the right side, there are two text input fields. The first field is labeled "Enter assigned EPP Sales Person code located on your EPP flyer:" and contains the text "UON SPP". The second field is labeled "Enter Your Organisation's Name:" and contains the text "University of Newcastle". Below these fields is a "LOGIN" button.

Step 2. Obtain Current Discount Code (Coupon)

Once you have logged in, you will find a number of discount codes depending on the Dell product family. The coupon code is displayed in **UPPERCASE RED TYPE** next to each product family.

Copy or write down the code that matches your intended purchase. Click on the green "Shop" link corresponding to your intended product, or enter the main Dell online store and select your new equipment.

Step 3. Apply the Discount Code to Your Purchase

As you check out of the Dell Online Store, prior to entering your payment information you will need to enter and apply the discount code you obtained at Step 2 by entering it in the “Enter coupon number” field.
