2027 Undergraduate Domestic Course Fee Exceptions

The below courses have a different student contribution amount from other courses in the same discipline because their course content has been mapped to a different Field of Education (FOE) code. This means the course may be assigned to a different fee band for student contribution purposes. The fees for these courses are listed below for the 2027 academic year. If you commenced your study prior to 01 January 2021, please refer to the fee listed for Pre 2021 Grandfathering Arrangements (5th column in table below).

Not all courses on the list are necessarily being offered or available for enrolment at present; some may not currently be running. The list should be used as a guide to courses with fee exceptions and to help you understand your tuition charges. Additional Course Exceptions being introduced from Midyear Session/Trimester 2 2027 are listed in Table 2.
