

Getting connected to the Wired Network (Windows 7)

1. Plug the cable into the outlet on your laptop or desktop and the wall outlet, and turn on the power.

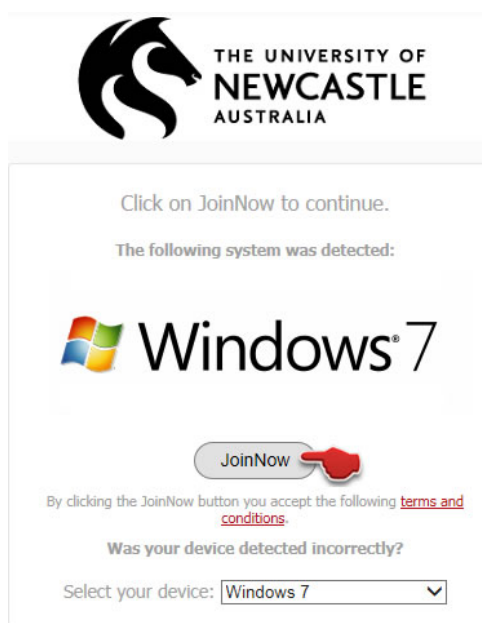

2. **Open a web browser.**
(This example uses Windows Internet Explorer. Screens may vary slightly depending on version of IE).
A University of Newcastle branded screen will appear.

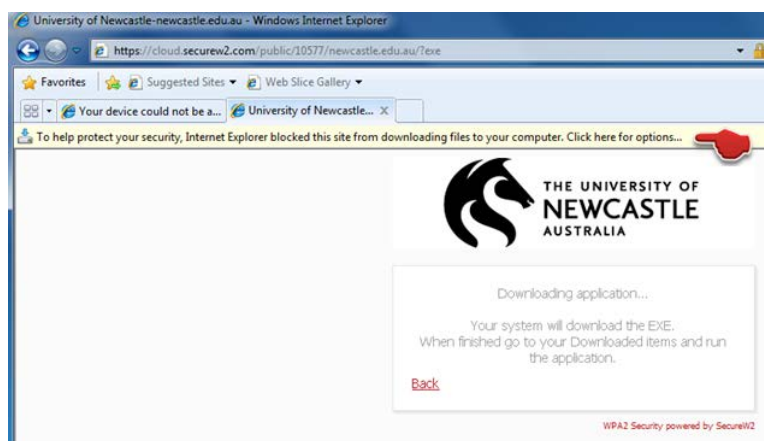

Click **OK**.

3. Click on **JoinNow**.

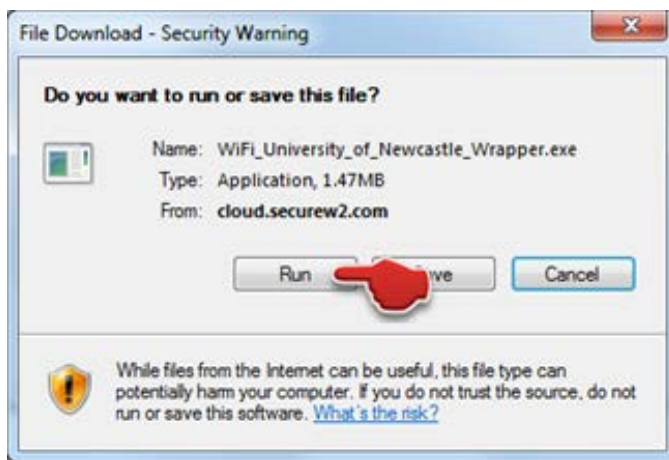

4. When prompted, click on the yellow ribbon to download files.

5. In the File Download – Security Warning window, click **Run**.

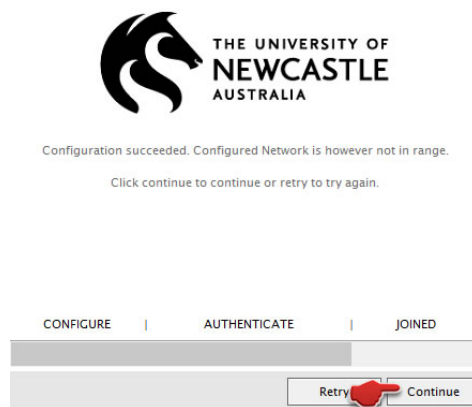

6. In the Internet Explorer – Security Warning window, click **Run**.

7. Configuration files will run.

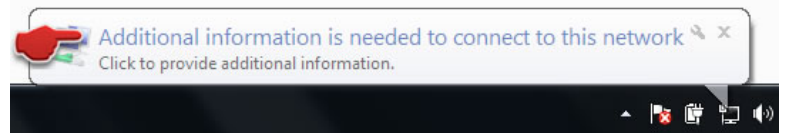

8. When prompted, click **Continue**.

9. A pop-up window will appear at the bottom of your screen.

Click on **Additional information is needed to connect to this network**.

10. A Network Authentication window will appear.

Type in your **UniID** and your usual **password**.

Your UniID is in the format:

Staff
abc123

Students
c1234567

Click **OK**.
