GRADUATION 2024  
**THURSDAY 12 DECEMBER**

## 2.30pm Ceremony

OCCASIONAL SPEAKER

# Mr Phillip Rossington

---

Phillip Rossington is a highly regarded architect with over three decades of experience across a wide range of sectors.

After graduating with First Class Honours in 1991 from the University of Newcastle, Phillip received the Design Medal from the NSW Institute of Architects as the top design student in the state. He then worked as a research assistant in the Faculty of Architecture before moving to Sydney to join the prestigious Lewin Tzannes architectural practice.

In 2010 Phillip became one of 15 Principals of BVN, one of Australia's largest architectural firms. He has led projects across the residential, education, hospitality, heritage, commercial and health sectors. His projects have been the recipients of over 50 industry awards including the AIA Wilkinson Award

for Residential Architecture for Bilgola Beach House, and AIA William E Kemp Awards for Educational Architecture for both the MIC School Senior Learning Centre in Burwood and St Patrick's College in North Strathfield.

Phillip's current projects include the redevelopment of the iconic brutalist Sirius building near the Sydney Harbour Bridge, the 68-storey Greenland Centre, and a new 50-storey hotel and residential tower over the historic Tattersalls Club in Sydney's CBD.

Recently appointed to the City of Parramatta's Design Advisory Panel, Phillip will now contribute his expertise to guiding key urban design projects across the city. His leadership continues to shape the architectural landscape of Australia.

## 2.30pm Ceremony

### HONORARY UNIVERSITY FELLOWSHIP RECIPIENT

In recognition of his dedicated service to the University Council and broader University community.

# Mr Geoffrey Lilliss

---

Geoff Lilliss is a recognised expert in the energy economy & management of large power networks. He was formerly EGM Network for Energy Australia, and previously he was COO of Orion Energy.

Changing focus, he became the Managing Director and Chief Executive Officer of a major international manufacturer in the resources sector. He has contributed at the most senior levels of Australian business and has extensive international experience in resources, power utilities and manufacturing.

He assisted the government in the leasing of the NSW transmission and distribution industry and is widely recognised as an expert in intelligent power networks. He has advised extensively in the development of the renewables sector.

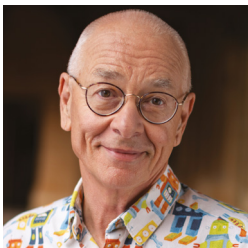

Geoff's work with the University of Newcastle was as a corporate supporter and a member of the University Council, a position he held for 12 years until 2021. He served on the Audit & Chancellor's committees

and chaired the Strategic Development Committee of the Council. It was through this work that he made a contribution to all aspects of University strategy, operations, governance and investment, helping to shape the University for the future environment.

In particular he was involved with the direction for the built estate, NUspace, campus development and the promotion of Singapore toward full University status. He championed research and work integrated learning at the University of Newcastle.

Initially a Conjoint Professor in the Faculty of Business and Law, Geoff was more recently a Conjoint appointment in the Faculty of Engineering.

Geoff continues to support regional economic development through his position as a director for Regional Development Australia, Hunter.

## 6.30pm Ceremony

HONORARY DOCTORATE AWARD RECIPIENT AND OCCASIONAL SPEAKER

# Dr Karl Kruszelnicki AM

---

When NASA classified Karl as non-astronaut material in 1981 he walked straight into ABC Radio station Triple J and offered to talk about the Space shuttle launch. They said 'okay' and his radio career took off from there. 'Great Moments In Science' ran on triple j while Karl moonlighted as a medical student.

Since then, his media career has exploded from radio to TV, books, newspapers, magazines, scripting, professional speaking, podcasts and the internet.

Dr Karl popularises science on ABC radio stations across Australia for several hours each week. Many of you will be familiar with the original talk back programme each Thursday on triple j from 11am to midday.

He has written (so far) 48 books, beginning with 'Great Moments In Science' in 1984, including such titles as, 'It Ain't Necessarily so.. 'Bro" (2006), which was launched, quite literally, via rocket at Sydney's Bondi Beach (a world first).

In 2002, Dr Karl was honoured with the prestigious Ig Nobel Prize awarded by Harvard University for his ground-breaking research into Belly Button Lint and why it is almost always blue.

In September 2003, Dr Karl was bestowed with the great honour of being named 'Australian Father of the Year'.

Dr Karl received the Member of the Order of Australia Award in the 2006 Australia Day Honours list. In 2007 the Australia Skeptics Society awarded Dr Karl the Australia Skeptic Of The Year Prize.

Dr Karl has degrees in Physics and Maths, Biomedical Engineering, Medicine and Surgery and has worked as a physicist, tutor, film-maker, car mechanic, labourer, and as a medical doctor at the Children's Hospital in Sydney.

His enthusiasm for science is totally infectious and no one is better able to convey the excitement and wonder of it all than Dr Karl Kruszelnicki.

## GRADUATE SPEAKER

**Geran Dunlop**

Bachelor of Science with Honours  
Class I and University Medal

---

## MUSICAL PERFORMANCES

The National Anthem will be performed by Imogen Downing-Donnelly accompanied on organ by Stephen Aveling-Rowe.

Musical interlude will be performed by Imogen Downing-Donnelly.

All musicians and performers are current students or alumni of the University of Newcastle.

## 6.30pm Ceremony

HONORARY DOCTORATE AWARD RECIPIENT AND OCCASIONAL SPEAKER

# Mr Robyn Williams AO FAA

---

Robyn Williams is a renowned British Australian science journalist and broadcaster. He has been a pivotal figure in science communication for almost 50 years, hosting The Science Show on ABC Radio National since 1975.

Robyn's early life was marked by a diverse education, attending schools in London and Vienna. He graduated with a Bachelor of Science (Honours) from the University of London.

His career began at the ABC Science Unit in 1972, where he quickly rose to prominence. As well as hosting The Science Show, he also created Ockham's Razor in 1984, a program aimed at making complex scientific topics accessible to the public.

Throughout his career, Mr Williams has been a passionate advocate for science and education. He has narrated numerous documentaries, including Nature of Australia, and has been involved in various initiatives like the Eureka Awards for Excellence in Science Communication.

His contributions have earned him numerous accolades, including being named an Honorary Officer of the Order of Australia in 2020.

Despite facing health challenges, including colorectal cancer, Robyn has remained dedicated to his work, often broadcasting from his hospital bed! His enduring commitment to science communication continues to inspire many.

## Celebrating 50 years of building pathways to brighter futures

The University of Newcastle's Open Foundation program is celebrating 50 years. That's 50 years of transforming lives and opening doors to education for all.

Since 1974, Open Foundation has grown to become the largest enabling program of its kind in Australia and is recognised as the industry benchmark.
