

# Research Professional User Guide

## \*Research Fingerprint

---

**NOTE: The website's appearance may differ from the screenshots provided depending on the device being used e.g. Tablet vs desktop computer.**

Research Professional provides each researcher with a Research Fingerprint, a personalised profile that draws from publicly available information (e.g. UON staff profile), and creates a list of keywords to generate alerts to funding opportunities relative to your research.

**Please note:** You will only have a Research Fingerprint if you are an academic staff member with an active Staff Profile.

Your Fingerprint can be accessed in your profile, under 'Email Alerts'.

Below is a snapshot of a Research Fingerprint. The areas of research are listed so as to reflect their weighting/relevance to you, with the most heavily weighted terms appearing at the top of the list and lesser weighted terms appearing towards the bottom.

Your Research Fingerprint will send you a weekly email notifying you of new funding opportunities matching your profile. You're able to turn these notifications on and off using the 'Weekly email notifications' toggle (turned off below).

You are able to permanently delete areas of research from your Fingerprint by clicking the 'x'. If you want to have an area of research temporarily excluded from your tailored funding alerts, you can toggle it on and off using the checkbox.

### My areas of research

Public Health	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Health Service Providers	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Health Promotion	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Health & Medical Informatics	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Cancer Studies & Oncology	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Primary Care	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Behavioural Medicine	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Clinical Decision-making & Analysis	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Medical Effectiveness & Patient Outcomes	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Health Insurance	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Patient Compliance	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Health Education	<input type="checkbox"/>	<input type="checkbox"/>

To add areas of research to your Research Fingerprint, use the search function found at the bottom of the list. Simply click the dropdown arrow and type in keywords to bring up a list of related research areas. Once you have identified an area you would like to add, click on it and then click 'Add to list'.

If you do not feel your Fingerprint shows an accurate reflection of your research interests but would still like to be notified of tailored funding opportunities, feel free to turn the weekly notifications off and instead create and save your own advanced search.

Further information on doing this can be found in the Saving Searches User Guide.
