## ESTABLISHMENT

The Commonwealth Scientific and Industrial Research Organisation (CSIRO) is Australia's national science research agency. We solve the greatest challenges using innovative science and technology. At CSIRO, we shape the future. We do this by using science to solve real issues to unlock a better future for our community, our economy, our planet. To be a truly diverse organisation we need to reflect the diversity that we see in society. We need the skills and knowledge to innovate for tomorrow and an understanding of today's big questions and how they affect everyone. However, women still hold far fewer leadership positions than men particularly in STEM fields where only 18 per cent of leadership positions are held by women. We're addressing gender equity through our work with the Science in Australia Gender Equity (SAGE) pilot and the Male Champions of Change (MCC) initiative. This scholarship is one way for us to address gender diversity.
