

Rising from the Embers Festival

The Rising from the Embers Festival is a collaborative event between the University of Newcastle, the Wollotuka Institute and Hunter Local Land Services.

The unique 2-day festival aims to increase community access and knowledge to land and water management practices, provides a platform for local businesses and showcases some local Hunter talent.

We hope to deliver an interactive, educational experience for all ages and interests.

We look forward to partnering with organisations and businesses who share our passion about land and water management, environmental innovation and sustainability and celebrating Aboriginal culture.
