GET READY TO ENROL

BACHELOR OF FOOD SCIENCE AND HUMAN NUTRITION

Welcome to the mid-year intake into the Bachelor of Food Science and Human Nutrition. Because you are starting your study in July, the way you complete your program will be different to students who began studying in February. Your academic year will run from July to June rather than the usual February to November.

Check out the online handbook for your degree:

After reviewing the handbook and the Mid Year Enrolment Guide below and overleaf, you will be better prepared for the courses you need to enrol in. Enrolments for Semester 2, 2014 will open on July 18. Refer to your Enrolment Information Booklet for instructions on how to enrol.

MID YEAR ENROLMENT GUIDE

Below is the recommended enrolment for students commencing full time study from Semester 2, 2014. Students studying part time or seeking recognition of previous study should refer to the Program Handbook and seek advice from the Program Officer for Food Science and Human Nutrition: Louise.Leemat@newcastle.edu.au.

Please be aware that the following information is the recommended enrolment as of June, 2014. Programs are subject to change. Please refer to the Program Handbook, or seek advice from your Program Officer, if you need clarification of your enrolment closer to 2015.

# CORE COURSES
All students in the Bachelor of Food Science and Human Nutrition must complete core courses. In your first 18 months of study you have 6 core courses to complete:

- **CHEM1110** – Chemistry for the Life Sciences 1
- **CHEM1120** – Chemistry for the Life Sciences 2
- **FSHN1010** – Foods and Nutrients 1
- **FSHN1020** – Foods and Nutrients 2
- **FSHN2020** – Macronutrients
- **FSHN2050** – Plant Food Products

# GROUP A DIRECTED COURSES
You must complete one of the following pairs of HUBS courses.

<table>
<thead>
<tr>
<th>Semester One, 2015</th>
<th>Semester Two, 2015</th>
</tr>
</thead>
<tbody>
<tr>
<td>HUBS1403 Biomedical Science 1 (with HUBS1404 in Semester 2) OR HUBS1401 Human Bioscience (with HUBS1416 in Semester 2)</td>
<td>HUBS1404 Biomedical Science 2 (with HUBS1403) OR HUBS1416 Advanced Human Bioscience (with HUBS1401)</td>
</tr>
</tbody>
</table>

# GROUP B DIRECTED COURSES

<table>
<thead>
<tr>
<th>Semester Two, 2014</th>
<th>Semester One, 2015</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH1110 Mathematics 1 (only available at Callaghan). You cannot complete both MATH1001 and MATH1110 OR PHYS1150 Everyday Physics OR STAT1070 Statistics for the Sciences</td>
<td>MATH1001 Preparatory Studies in Mathematics. You cannot complete both MATH1001 and MATH1110 OR MATH1110 Mathematics 1 (only available at Callaghan). You cannot complete both MATH1001 and MATH1110.) OR STAT1070 Statistics for the Sciences (available at Callaghan only)</td>
</tr>
</tbody>
</table>

# ELECTIVES
In the Bachelor of Food Science and Human Nutrition you are only permitted 40 units (generally 4 courses) of electives in the whole program. You can select electives in lieu of Directed Courses. If you select electives in first year then you will be limited in elective options later in your degree.

### Which courses count as Electives?
An Elective is any* course offered by the university. As a first year student, it is recommended that you only complete first year (1000 level) courses. So make sure any courses you enrol in for your Electives have a 1 as the first numeral in the course code (e.g. ABCD1000).

* Please note that enrolment in some courses is restricted to students who meet certain pre-requisites (e.g. some courses are limited to students in a particular degree). However, most courses are not restricted.

Please note that the timetable shows all possible classes for each course. You should plot your lecture times in the table below and then plot your preferred tutorial/lab times for each course. Enrolment operates on a ‘first in’ basis, so please make sure you have some alternative tutorial/lab times prepared in case you do not get your first choice.

Also, enrolment in some courses may be restricted to students who have certain requisites (e.g. some courses are limited to students in a particular degree or who have completed a particular course).
