

Description of Injury/Illness:

Please select from the following description categories:

Body Location:

- Arms
- Back
- Hands
- Head
- Shoulders
- Internal organs
- Legs
- Feet
- Multiple
- Neck
- Psychological systems
- Ear
- Eye
- Respiratory system
- Other
- Unknown

Nature of Injury:

- Burn
- Eye disorder
- Ear disorder
- Faint
- Fracture/dislocation
- Infection
- Laceration/open wound
- Poisoning
- Psychological conditions
- Respiratory disorders
- Skin conditions
- Strain/sprain (includes hernia)
- Contusion/bruising (closed wound)
- Internal injury
- Amputation (including loss of eye)
- Other
- Unknown

Mechanism of Injury

- Being hit by moving objects
- Body stressing (muscular stress and repetitive movements)
- Contact with animal
- Contact with chemicals and other substances
- Contact with electricity and other energy sources
- Exposure to environmental factors e.g. heat/cold
- Exposure to biological materials
- Exposure to communicable/infectious diseases
- Exposure to excessive noise/pressure/vibration
- Falls on same level/trips/slips
- Falls from height
- Hitting objects with part of body
- Mental stress
- Vehicle accident
- Contact with hot/cold objects
- Exposure to ionising radiation
- Other
- Unknown

Agency of Injury

- Animal (living or dead)
- Chemical
- Biological agents
- Human
- Indoor environment
- Office furniture/equipment
- Outdoor environment
- Plant/equipment/tools – fixed
- Plant/equipment/tools – moving
- Plant/equipment/tools – laboratory
- Transport
- Radiation
- Unknown
- Other
