

CANDIDATE STATEMENTS

Gianna Herring

I wish to nominate myself for membership of the UniSuper Consultative Committee. I am a current Unisuper Fund Division A member and am a full time ongoing employee with the University of Newcastle.

I have worked in the University's Superannuation Officer role for the past four years, during which time I have developed a strong understanding of member needs, superannuation processes, and the practical challenges staff face when navigating their entitlements and retirement planning.

I believe my experience would enable me to make a valuable contribution to the Committee and support positive outcomes for both staff and members. I am committed to ensuring that staff voices are represented and that communication between members and the Committee remains clear, practical, and constructive.

I also see this opportunity as a valuable way to further develop my professional skills while contributing more broadly to the improvement of services and outcomes for staff and members.

I would welcome the opportunity to bring my experience, commitment, and collaborative approach to the UniSuper Consultative Committee.

Keaton Humphries

I am a Manager in Financial Accounting at the University of Newcastle, with extensive experience in financial governance, compliance, and long term financial outcome planning. I have worked across the University since 2012 in both academic and professional roles, giving me a broad understanding of the needs and priorities of staff.

I am a member of the University's Equity, Diversity and Inclusion Committee and bring both governance experience and a commitment to inclusive representation. Drawing on both my professional experience and my lived experience with disability, I am passionate about ensuring diverse perspectives are reflected in decision making.

I also have a background in mathematics, supporting strong analytical and problem solving capabilities. I will represent members thoughtfully, advocate for outcomes that matter, and contribute constructively to strengthening UniSuper for the benefit of the university community.
