

DISCLOSURE LOG

The University's disclosure log records details of information that the University has released in response to a Formal Application under the Government Information Public Access (GIPA) Act, and that the University considers may be of interest to other members of the public. The purpose of the disclosure log is to provide access to information for people who want the same or similar information and would otherwise have to make an informal or formal access application.

2025

Date of Decision	Description of Information	How it may be accessed
July 2025	1. The number of instances of academic misconduct at the University of Newcastle between January 1 2023 and June 30 2025. 2. Details of the type of misconduct that occurred between the above dates. 3. Details of action taken as a result of the misconduct.	GIPA Office Resources Division E: gipa@newcastle.edu.au

2024

Date of Decision	Description of Information	How it may be accessed
January 2024	1. Confirmation of the vaccination requirements for students completing a degree in Nursing at your University; 2. The medical and/or epidemiological and/or virological and/or other evidence your University relies on to institute a vaccine mandate/direction to your students as a condition of enrolment and/or completion of a Nursing degree in the absence of a public health direction in relation to same; 3. The long-term safety data your University relies on to institute a vaccine mandate/direction to your students as a condition of enrolment and/or completion of a Nursing degree in the absence of a public health direction in relation to same; and 4. The results of any risk assessment conducted by your University with respect to the implementation of vaccination as a control measure vis a vie Covid-19.	GIPA Office Resources Division E: gipa@newcastle.edu.au

2023

Date of Decision	Description of Information	How it may be accessed
------------------	----------------------------	------------------------

January 2023	The National Tertiary Education Union (NTEU) seeks information relating to the delivery of emails using the @nteu.org.au domain to University of Newcastle staff. Specifically, we request any audit and operations log entries for the University's Mimecast software suite detailing any configuration changes made between 12:00am Monday 5 December and 11 :59pm Saturday 10 December AEDT that may have had any impact on the deliverability of email using the @nteu.org.au domain.	GIPA Office Resources Division E: gipa@newcastle.edu.au

2021

Date of Decision	Description of Information	How it may be accessed
March 2021	1. Run a report from the security incident log in relation to reports of physical assault occurring on campus. 2. "... a report to be run from the CampusCare database, however the categories will be limited to sexual assault or sexual harassment. Further, descriptors such as 'substantiated and unsubstantiated' don't fit within the victim-led nature of the University's response to these matters, as they are only referred on to the DVC-A for investigation if the victim wishes that to occur. Otherwise, outcomes may be a referral to the police or the generation of support plans etc. Therefore, we can provide a 'disclosure status' which may include information regarding penalties and outcomes if the report is referred to the DVC-A for assessment and investigation..." 3. "Including related AV material, such as CCTV/mobile phone/ video footage/photos"	GIPA Office Resources Division E: gipa@newcastle.edu.au
