Course Outline - Compulsory Requirements

The Course Outline generator in NUSTAR already captures our **existing** compulsory attendance requirements. This section is not editable and can only be utilised to indicate the method of recording attendance for **existing** compulsory attendance requirements.

Compulsory Requirements In order to pass this course, each student must complete ALL or	f the following compulso	ry requirements:
Contact Hour Requirements:		
There is a compulsory attendance requirement in this course.	Tutorial	Student must attend a minimum of 80% of these sessions

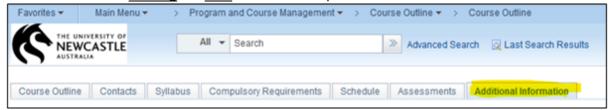

Where the compulsory attendance requirement is <u>new</u>, text will need to be added to the Course Outline after it is generated.

A <u>new</u> compulsory attendance requirement which applies to all students should be entered into the Course Outline as:

Contact Hour Requirement		
Attendance will be recorded for some activities in this course.	<insert activity=""></insert>	All students must attend in 80% of the <insert activity="">.</insert>

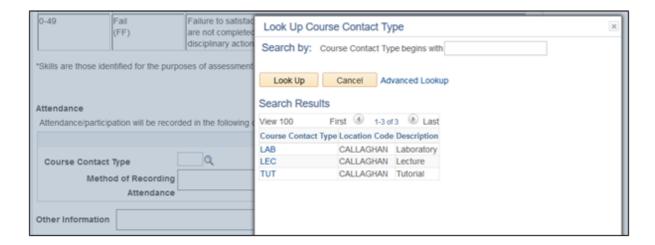

Course Outline – Additional Information Section

The Course Outline generator in NUSTAR is already utilised to capture the method of recording attendance. This section is editable and can be utilised to indicate the method of recording attendance for both **existing** and **new** attendance requirements.

When the search icon is selected only the course contact types utilised by the course will appear, example below.

		Find	First 🕚 1 of 1 🕪 Last
