

DISCLOSURE LOG

The University's disclosure log records details of information that the University has released in response to a Formal Application under the Government Information Public Access (GIPA) Act, and that the University considers may be of interest to other members of the public. The purpose of the disclosure log is to provide access to information for people who want the same or similar information and would otherwise have to make an informal or formal access application.

Date of Decision	Description of Information	How it may be accessed
March 2021	<ol style="list-style-type: none"> 1. Run a report from the security incident log in relation to reports of physical assault occurring on campus. 2. ... a report to be run from the CampusCare database, however the categories will be limited to sexual assault or sexual harassment. Further, descriptors such as 'substantiated and unsubstantiated' don't fit within the victim-led nature of the University's response to these matters, as they are only referred on to the DVC-A for investigation if the victim wishes that to occur. Otherwise, outcomes may be a referral to the police or the generation of support plans etc. Therefore, we can provide a 'disclosure status' which may include information regarding penalties and outcomes if the report is referred to the DVC-A for assessment and investigation..." <p>"Including related AV material, such as CCTV/mobile phone/ video footage/photos"</p>	GIPA Office Resources Division E: gipa@newcastle.edu.au
