THE UNIVERSITY OF
NEWCASTLE
AUSTRALIA

Every path welcome, every student celebrated.

At the University of Newcastle, we believe diversity is at the heart of innovation.

And with a 5-star rating for social equity¹, we celebrate difference, and embrace fresh perspectives. So, wherever you come from, and whatever your passion, we are here to help you pursue it.

Maybe you will join our 300+ scientists and researchers working to discover renewable energy solutions. You might advocate for the rights of refugees, or make your start-up dream a reality.

Maybe you will join one of our 80+ clubs, societies and sports teams to meet people who share your passions and interests – and make lifelong friendships.

We are also proud to be ranked as a top 30 university in the world for impact². We believe to make real impact you need real world understanding. And that is why all our degrees offer incredible hands-on experiences.

So come and join us at the University of Newcastle. Bring your ideas, your passion, and your energy. Together, we just might change the world.

There is a place for you.

We acknowledge the traditional custodians of the lands within our footprint areas: Awabakal, Darkinjung, Biripai, Worimi, Wonnarua, Gomeroi and Eora Nations. We pay respect to the wisdom of our Elders both past and present. We also acknowledge and pay respect to the other Aboriginal and Torres Strait Islander nations from which our students, staff, and community are drawn.

Welcome

We are delighted you are considering studying at the University of Newcastle. Our University is ranked among the top 175 universities worldwide and with a diverse community hailing from over 100+ countries, you will experience a unique blend of cultures while enjoying a world-class education in a multicultural city. Join us and immerse yourself in a rich student life across our stunning campuses in Newcastle, Sydney, the Central Coast, and Singapore.

Our campuses offer more than just academic excellence; they are safe and welcoming hubs of cultural and social activities set against the backdrop of some of Australia's most beautiful landscapes. Whether you are into arts, sports, or simply enjoying the great outdoors, there is something for everyone.

Our career-ready placements are an integral part of all our programs, providing you with invaluable real-world experience across various industries that will set you apart in the competitive global job market.

We do not just talk about making a difference; we are doing it. Ranked in the top 30 globally for impact against the United Nations' Sustainable Development Goals, we operate on 100% renewable energy and aim to be carbon neutral by 2025.

We are also deeply committed to impactful research. As a student here, you will have the chance to learn from leading researchers who are making significant contributions to knowledge and innovation, both in Australia and globally.

We cannot wait to welcome you to our diverse and inclusive community, where you will find endless opportunities to learn, grow, and make a lasting impact.

¹ QS World University Rankings by Subject 2024. ² Shanghai Ranking's Global Ranking of Academic Subjects 2023.

Accelerated degree options available based on individual student backgrounds.

* This program is an honours only program. Please visit the University website for admission requirements.

* End-on Honours is a separate and additional year of study following the completion of a bachelor degree. This is a very different experience to the earlier years of study. There are fewer formal classes and more individual work. Honours can be course work based, research based, or a combination of the two. Admission requirements for End-On Honours vary by program, but often require a minimum GPA.

> Depending upon admission qualification - duration of program will alter.

Academic entry requirements

Minimum academic entry requirements

There are minimum academic entry requirements to the University of Newcastle by level of study. These vary by country and program. If your country or qualification is not listed in the table below, visit our website and select the degree you are interested in studying and the country you have completed a qualification from to see applicable qualifications, required score and calculation methods.

How to apply

It is recommended you submit your application as early as possible before your intended semester or trimester start date. Late applications may be considered for the next available intake. Follow these easy steps to start your journey at the University of Newcastle.

1

Find your agent

The University of Newcastle has a list of education agents that are located around the world and are able to assist you with your application.

Scan QR code.

Students from some regions are required to lodge their applications via education agents as direct applications will not be accepted.

2

Program handbook

Check out the program handbook for your preferred degree.

Scan QR code.

3

Review what you need to apply

Apply here.

4

Register on the portal and complete the online form.

If applying without an agent upload coloured copies of all supporting documentation.

5

Assessment

Your application will be assessed to determine if you meet the academic, English proficiency and any other relevant requirements for admission to the University and your desired program.

Outcome

You will be notified of the outcome of your application via email. If your application is successful, you will receive an offer letter from the University.

Conditional offer letter – upload the outstanding documents on the action item to meet the conditions of your offer.

Unconditional offer letter – Accept in the portal and upload your signed offer of acceptance, evidence of insurance (OSHC) if required and pay the deposit using the link on your offer.

6

7

Acceptance email

An email confirming your acceptance will be sent to you if applying directly with instructions on the next steps to activate your student account. This email will contain a Confirmation of Enrolment (CoE) to enable you to apply for a Student Visa.

8

Apply for your visa

Uni terminology

Some key terms explained

Starting your university journey can sometimes feel overwhelming. This directory defines some useful concepts to help you along the way.

College

An organisational unit with responsibility for academic programs, often with a number of sub-units called Schools. All degrees will be owned by a particular College of the University.

We have four Colleges at the University of Newcastle, they include;

College of Engineering, Science and Environment, College of Health, Medicine and Wellbeing, College of Human and Social Futures and College of International Education

Combined degrees

A combined degree means you study two degrees at once. You will then graduate with two qualifications in less time.

Learning formats

- **Blended Learning:** enables you to master course content independently through a variety of online learning activities and then attend workshops to engage with materials on a deeper level and actively work with course materials.
- **Laboratories:** gives you a chance to practise and experiment with what you are learning.
- **Lectures:** provide the theory component of your area of study in an interactive and engaged environment.
- **Tutorials:** small classes run by tutors where students have the opportunity to explore and ask questions.
- **Workshops:** active classes that give you a chance to practise what you are studying in an engaged environment.
- **Captured Lectures (through UONCapture):** provide slides and audio recordings of your lectures to allow you to listen back and review lecture materials in your own time.

Majors and minors

Some degrees allow you to major or specialise in a particular group of courses. This focuses your area of study and ensures you are suitably qualified for jobs in your preferred field. Some degrees also give you the opportunity to complete a double major which is two specialty areas. A minor is a specialised area of study without the depth of a major.

Mid-year

You can apply to start selected degrees in the second semester commencing in July.

Qualification

- **Bachelor degree:** the university level qualification for entry into many professions.
- **Diploma:** a program of study requiring 80 units to be completed. These are not available to international students.
- **Doctorate:** the highest postgraduate achievement an individual can earn and recognises a significant original contribution to a field of knowledge.
- **Higher Degree by Research (HDR):** is a postgraduate university degree involving a unique supervised research project. These degrees are either a Masters of Philosophy or a Doctoral degree (either Professional Doctorate or a PhD).
- **Honours:** some degrees allow you to get an additional qualification that helps boost your chances of employment. Embedded honours is included in many 4 year degrees or honours can be studied as a separate additional year for 3 year degrees.
- **Masters:** a qualification granted at the postgraduate level to individuals who have successfully demonstrated a high level of expertise in a specific field of study or area of professional practice.
- **Postgraduate degree:** any qualification being at the level of Graduate Certificate or above.
- **Undergraduate degree:** any qualification up to and including the level of a Bachelor Honours degree.

Semester

This is the academic teaching period, which is approximately 13 weeks in duration. There are two semesters in a year.

Trimester

For some programs, the University operates a trimester system. This involves three 13-week trimester periods throughout the year.

Winter and Summer Study

A number of courses are offered to undergraduate and postgraduate students through the Summer and Winter terms. These courses are delivered in a shorter, more intensive format.

Career-ready placements

Work experiences built into our degrees where you can apply your classroom theory to a real-world setting.

Student support

We have a range of services available to help you, such as:

- **Peer Assisted Study Sessions (PASS):** one-hour weekly review sessions.
- **Academic Learning Support:** for tips, workshops and resources from our Learning Advisors.
- **Careers and Student Development:** for access to valuable work experience opportunities and employment help.
