

Aboriginal Fathers **STAYIN' ON TRACK**

*Supporting young Aboriginal men in their transition
to fathering through a user-designed website*

This project will help Close the Gap by supporting young fathers to build a strong male identity and strong relationships with family. Aboriginal fathers from Newcastle, Tamworth and Moree have co-designed a website linking dads with information and support. They tell their own stories of becoming young Aboriginal dads on film. These powerful films engage Aboriginal fathers to be proud of their roles and seek information and support.
