

# University of Newcastle Business & Industry Scholarships

THE UNIVERSITY OF  
NEWCASTLE  
AUSTRALIA

The University is keen to partner with external organisations to establish scholarships for PhD students.

Students on Business & Industry Scholarships typically work on projects initiated by the partner organisation and may be wholly or partly based with the organisation during their candidature. They will receive supervision from both UON academics and members of the partner organisation. These students may also be your employees who wish to complete further education.

Approximate costs of the scholarship would be \$28,500 per year, for 3.5 years.

If you are interested in connecting with researchers at UON to fund a PhD scholarship please contact Professor Lucy Johnston, the Dean of Graduate Research, or if you already have links with academics at UON please contact them directly to discuss possibilities.
