## ESTABLISHMENT

This scholarship was established by Ms. Dianne Allen to acknowledge her grandfather, Frank Kent. Frank was born in Croydon, England in 1903. His family moved to Australia in 1910 and resided in the Singleton area. Frank received a scholarship (100 pounds) from the Northern Districts Agricultural Society in 1920 that enabled him to undertake a Diploma of Agriculture at the Hawkesbury Agricultural College. After graduating, Frank held positions at a stud and research farm in Werribee, Victoria. He then returned to Singleton and with his father, purchased a 200-acre farm (dairying and lucerne).

Frank's focus was on applying agricultural science to pasture improvement and irrigation methods, in a practical and economic manner, to achieve profitable operations.

At age 36, Frank enlisted in the army where he served in the 2/30 Battalion during World War II and was based in Darwin during the Japanese bombing in February 1942.

Frank was discharged from the army in 1946 and was appointed Farm Manager at the CSIRO Experimental Station in Katherine NT. He also served 12 years as manager of Berrimah Experimental Farm specialising in plant introduction. In 1959 he wrote the book "Introduction to Agriculture in the Upper Half of the Northern Territory". His contribution to agriculture in the Northern Territory was recognised with a street at the Katherine Experimental Station named after him as well as a pasture grass (*Andropogon gayanus Kunth (gamba grass) cv Kent*).

Frank was a community minded person. He stood for the seat of Batchelor in the Northern Territory Legislative Council election in 1947 and for the seat of Darwin in 1951. He also supported many charities and fundraising efforts.

Frank recognised the benefits of education, supporting his children and grandchildren in undertaking tertiary study. He was a lifelong advocate of the value of education and was very proud that his three granddaughters attended this University. Frank died in 1985. His final act reflected his commitment to science and education, leaving his body to research.
