COMPULSORY PROFESSIONAL PRACTICE: INDUSTRIAL EXPERIENCE 12 WEEKS

PROGRAM PLAN

BACHELOR OF CIVIL ENGINEERING (HONOURS)/ BACHELOR OF ENVIRONMENTAL ENGINEERING (HONOURS)

To be eligible to graduate make sure you have completed 400 units (10 units = 1 course unless otherwise specified) which meet the following criteria:

- Core courses – 400 units including:
 - * Maths courses
Enrolment in MATH courses is based on your assumed knowledge. To find out which MATH courses you should enrol in please see the [Enrolling in Maths information](#). More information in your [Program Handbook](#)
 - ** PHYS courses. Students may count PHYS1210 Advanced Physics 1 in lieu of PHYS1205 with Program Convenor approval.
 - ^ Project Core Course – 10 units. Students may choose either CIVL4640 Project S1 (Semester 1) **OR** CIVL4660 Project S2 (Semester 2), whichever best fits their program. Course content and assessment are identical.
- # Civil Engineering Design Core Course – 20 units. (See next page). More information in your [Program Handbook](#).
- Students must not exceed 120 units at 1000 level for either degree in this program.
- It is also a requirement that students complete a total of 12 weeks of [industrial experience](#).
- The duration of this program is 5 years full time (40 units per semester) or part time equivalent.
- The maximum time to complete this program is 12 years.

Some courses have assumed knowledge and/or requisites, please refer to the individual [Course Handbook](#). Please refer to the [Program Handbook](#) for specific information on program structure. If you are intending varying from this program plan please seek advice from your [Academic Program Advisor](#).
