Research Stream

Choose **20 units** from the following Directed courses.

To be eligible to graduate make sure you have completed 120 units (10 units = 1 course unless otherwise specified) which meet the following criteria:

✓ Coursework Specialisation

- Core courses – 60 units
- Directed courses – 60 units
- EPID6600: Research Protocol Design should be taken in your final term of study where possible

✓ Research Specialisation

- Students can receive a maximum of 20 units RPL to this specialisation
- Core courses – 60 units
- Directed courses – 20 units
- Students who would like to undertake this specialisation should contact the Program convenor (details in Blackboard) to discuss their research options
- Students must have successfully completed EPID6600 Research Protocol Design to undertake EPID6630 Research Project
- EPID6630 Research Project should be taken in your final term of study

✓ BIOS6910: Biostatistics A should be taken before BIOS6920: Biostatistics B

✓ EPID6420: Epidemiology A - Basic Methods should be taken before EPID6430: Epidemiology B - Research Designs

✓ The duration of this program is 1.5 years full time study, or part time equivalent

✓ The maximum time to complete this program is 5 years

✓ The above full-time enrolment patterns comply with the conditions of international student visas. Failing to follow this enrolment advice may result in international students not being able to graduate within the period of their Confirmation of Enrolment

Some courses have assumed knowledge and/or requisites, please refer to the individual [Course Handbook](#).

The [Program Handbook](#) has valuable information on program structure and requirements, if you are intending on studying part time or varying from this program plan please seek prior advice from your [Program Advisor](#).
