

WILD YEAST ZOO

BIO TECH STARTUP

THE UNIVERSITY OF
NEWCASTLE
AUSTRALIA

DR BENJAMIN MATTHEWS, CLAUDIA HOLT, EVAN GIBBS AND PROFESSOR PETER LEWIS

Innovating Biotech with Australian Wild Yeasts.

At Wild Yeast Zoo, we harness the extraordinary potential of yeast to drive eco-friendly solutions and pioneer advancements in biotechnology. Our mission is to create sustainable products and explore new horizons in microbial technology, pushing the boundaries of what's possible. With a focus on innovation and sustainability, we aim to make a significant impact on the environment and society. Join us on our journey to transform industries and foster a brighter, more sustainable future.

COMPETITIVE ADVANTAGE

- Innovative Yeast Technology: Pioneering advanced microbial solutions for sustainable bioproducts
- Cutting-edge Bioengineering: Leading the way in developing new horizons in microbial technology
- Sustainability Focus: Ethical practices that drive significant environmental impact
- Collaborative Network: Strong partnerships with top research institutions and industry leaders.

PARTNERS

- ARC Centre of Excellence in Synthetic Biology
- Inspiring Australia (NSW & QLD)
- Woodford Folk Festival
- Australian Genome Foundry.

SUCCESSFUL RESEARCH APPLICATION

- Completed CSIRO ON Accelerate & Incorporated
- Attracted over 750k Grants and Prize moneys
- Rapidly growing microbe collection
- Built technology pipeline and partnerships to characterise yeast.
