## NewHOPE Biobank Sample Access Enquiry Form

Any researchers or research groups interested in using the NewHOPE Biobank samples and data are required to submit an expression of interest for the project to NewHOPE and specify by whom, how, and under which circumstances the data will be stored and analyzed. If, in principle, an agreement is reached that samples and/or data can be provided, HREC approval will need to be submitted to NewHOPE before data or samples are released. Any data provided to external researchers will be de-identified, and the researcher(s) will be asked to destroy the data after five years or after the time frame specified by their institutional data retention policy (which will be confirmed to NEW HOPE when they request access to the data).

### Sample Data Request Details

Investigator/Researcher details	
Type of samples	
Inclusion Criteria:	
Exclusion Criteria:	
Number of samples	
Specificity of disease (e.g. subject group, severity, endotype, phenotype)	
Number of wells or cells per sample	
Requested date for sample receipt
