## NeW in the Library:

➢ Cultural competencies training,
➢ NURO: New Research Publications System,
➢ ArticleReach: easy desktop article delivery,
➢ Summer hours,
➢ A new Library website and more …

New Library website goes live

The Library website has been redesigned. The bright, new design matches the new University website and makes it easier for students to find resources and connect with Library staff.

Our latest Library Client Satisfaction Survey flagged the website as an area students felt required attention. The new site provides more opportunities for staff to engage with students and to highlight key resources and events.

The site will continue to evolve in the future and we will continue to undertake user testing to ensure that the site meets the requirements of a changing student and staff environment.

Tell us what you think about the new site at
http://www.newcastle.edu.au/library/help-and-information

Getting journal articles just became easier with the launch of:

ArticleReach Direct Article Reach Direct

Article Reach Direct is a new and easier way to access journal articles not held in the University of Newcastle Library's collection. ArticleReach Direct is a consortium of Australian and international university libraries that have agreed to share journal articles.

Use ArticleReach Direct when you can't find the **journal article** you want in the Library collection. Articles are sent to your email address and are also available in your MyLibrary account for 30 days.

Access ArticleReach Direct by clicking the icon from the Library catalogue.

Help using ArticleReach is available from:
http://libguides.newcastle.edu.au/articlereach

SUMMER LIBRARY HOURS

Please check www.newcastle.edu.au/library for opening times during the **2013 / 2014 Summer Holiday** period.

Auchmuty Library						
02 Jan-23 Feb	Mon, Thur, Fri	8.30am-5.00pm	Tue, Wed	8.30am-8.00pm	Sat, Sun	Closed
Auchmuty Information Common (AIC)						
02 Jan-02 Feb	Mon-Fri	8.00am-10.00pm			Sat, Sun	9.00am-5.00pm
City Library						
06 Jan-02 Feb	Mon-Fri	9.00am-5.00pm			Sat, Sun	Closed
City Hub and Information Common (CHIC)						
06 Jan-26 Jan	Mon-Fri	9.00am-5.00pm			Sat, Sun	Closed
Huxley Library						
06 Jan-23 Feb	Mon-Fri	8.30am-5.00pm			Sat, Sun	Closed
Ourimbah Library and Information Common (OIC)						
02 Jan-02 Feb	Mon-Fri	9.00am-5.00pm			Sat, Sun	Closed
Sydney Library						
06 Jan-02 Feb	Mon-Fri	9.00am-4.00pm			Sat, Sun	Closed

All Libraries and Information Commons will be closed for the Australia Day Public Holiday, Monday 27th January.

ABORIGINAL & TORRES STRAIT ISLANDER CULTURAL COMPETENCY SHOWCASE

Library staff members were invited to present at the Aboriginal and Torres Strait Islander Cultural Competency Showcase day, held at Wollotuka on Wednesday 2nd October.

During the past 12 months, over 77% of Library staff participated in workshops at either the Ourimbah or Callaghan campus.

Staff said the workshops provided informative and relevant content, and found the personal stories presented particularly inspiring. The online Red Ochre site which staff were encouraged to work through prior to the sessions was also beneficial.

Library staff developed a number of action plans from the workshops and the October Showcase was an opportunity to present the plans and highlight progress achieved.

Library staff members Leone Clough, Narelle Hampe and Colleen Shipman presented the Library action plans for Huxley, Ourimbah and Auchmuty Libraries. The presentations highlighted actions that have been completed and those that are still underway as part of our strategy for developing a more culturally competent and engaged University Library. Actions included:

- Identify and promote culturally appropriate Indigenous Library resources;
- Engage with the Indigenous University community;
- Indigenise the Library's print and online collections;
- Provide suitable Library space

Participants at the Showcase were treated to a bush tucker feast including crocodile, kangaroo and barramundi as well as a display of traditional dancing and were also given framed certificates to display within their work areas

Indigenous Support Librarian, Colleen Shipman, receives the team certificate from Leanne Holt, the Director of the Wollotuka Institute

Emerald Frog competition winners

A leap in access and content –Emerald

Congratulations to Loraine Haywood from the Resource Sharing Team(1st place) and John Collins from Lending Services (equal 2nd place) for their creative winning entries in the Emerald Frog competition.

Frog Jam

The competition highlight Emerald online resources and UON Library staff provided a number of imaginative entries. The winning entries will feature in a 2014 Calendar.

Vice-Chancellor's Awards for Professional Staff Excellence

Congratulations to two library staff who have received VC's awards for staff excellence:

Narelle Hampe received an individual award for the e-portfolio tool that was developed during her time at the Central Coast Local Health District (CCHD) Library and in recognition of Narelle's liaison role in the provision of seamless library services to students on placement at CCHD hospitals.

Lisa Ogle also received a team award as a member of the NURO (Research Publications Project) Team implementing the new research publications management system.

NURO

Newcastle University Research Outputs (NURO) is the University of Newcastle's research publications management system.

NURO automatically searches for an individual's research outputs in Web of Science, Scopus and PubMed every two weeks. Researchers can customise their searches to add their back catalogue of research outputs and enter non-UoN affiliated publications.

Users can manually add records or upload entire CVs from EndNote or BibTeX for publications not automatically found in databases. Once claimed, or manually entered, a publication appears on a researcher's profile overnight.

NURO also captures bibliometric and citation metadata such as journal impact factors, citation counts, co-author addresses and h-index from WoS and Scopus.

NURO contains a HERDC module where researchers can nominate their publications for the annual publications collection and provide information to the Library to support their nominations.

FEATURES

- Instantly update your research profile
- Add publications
- Find your publications
- Import from EndNote / Reference Manager / BibTeX
- Export publications to your CV
- Nominate HERDC publications

publications@newcastle.edu.au

Launch of NURO–The University of Newcastle's Research Publications Management System

The University's new research publications management system, **NURO**, is now available to researchers. NURO replaces Callista and Research Portfolio Manager (RPM) as a single point of entry for all research publications. RPM will continue to be used for ERA related activities and management of web profiles.

The Research Publications Project was a cross-unit collaboration funded through the 2013 IT program of works and included staff from the Research and Innovation Division, the Library and IT.

NURO uses the Symplectic Elements system to harvest publications automatically from the Web of Science, Scopus and PubMed databases. When the system finds potential publications researchers receive an email alert, asking them to claim or reject the publications. Researchers will also be able to manually enter those publications not found in the databases. Once a publication is entered or claimed it will appear on a researchers' online profile, with no need to wait for HERDC verification.

Library staff will continue to manage the annual Higher Education Research Data Collection (HERDC), with researchers nominating their publications within NURO. For most full-text publications available online via library subscriptions, we will no longer collect copies of publications.

Other features of the new system include:

- Export of up to date publication lists in various formats for inclusion in grant, funding or promotion applications.
- Upload of Endnote, Reference Manager and Bibtex libraries of publications.
- Inclusion of bibliometric data such as journal rankings, impact factors, article citations, h-indices and Altmetrics scores.
- Real-time publications reporting and statistics in a range of formats.

The NURO Project Team is visiting Schools to demonstrate the system to researchers. To organise an information session please contact Richard Maher on **4921 7264** or Lisa Ogle on **4921 5828**.

Further information about NURO is available at http://libguides.newcastle.edu.au/research-publications
