

MNGT2005: Leadership and Ethics

UTCC 2024

THE UNIVERSITY OF
NEWCASTLE
AUSTRALIA

MISSION: To develop a unique business school identity which is distinctive in the marketplace and provides a clear value proposition for students. This will be achieved by embedding the themes of entrepreneurship and innovation, digitalisation and data within our programs and embracing sustainability, work integrated learning and a commitment to social justice.

OVERVIEW

Course Description

Leadership and ethics have never been so important in contemporary business environments given high profile cases of ethically-compromised corporate failures. This course introduces students to the concepts of ethics and ethical behaviour within the context of leadership for the 21st century. The course will examine contemporary dynamic and complex business environments and explores the need for leaders to manage effectively ethically challenging situations, whilst seeking to balance the (often conflicting) expectations of multiple stakeholders. It examines both the foundations of ethical approaches within the context of leadership and the dominant normative leadership theories as well as emerging values-driven leadership theories. It evaluates such theories and examines closely contemporary issues in leadership and the special role of the leader in nurturing ethically-orientated organisations. In addition, students are also introduced to the UN Sustainable Development Goals (SDGs) – ‘17 Goals to Transform Our World’. In the workshops we discuss the role of leadership in addressing these SDG’s.
